Application Process

1. A prospective applicant meets with DDD staff regarding the Program and development of improvement plans.
2. Applicant meets with Historic District Landmarks Commission (HDLC) to determine development criteria and completes improvement plans, including necessary work with an architect or engineer. Applicant obtains approvals of plans with the New Orleans Department of Safety and Permits and HDLC if applicable.
 - a) The DDD will directly review the plans for any projects which do not require the approval of the HDLC; and render a decision based on consultation with the HDLC
3. Applicant provides to the DDD satisfactory evidence of City and HDLC approvals (if HDLC approval is applicable).
4. If approved, DDD provides letter of Grant Commitment, subject to completion of the project according to city building permits, compliance with DDD program requirements, and all other required approvals. **This letter will act as a notice to proceed on the Outdoor Dining Grant Program. The DDD will not accept as a part of the project costs any renovation expenditures made before the date of the grant commitment letter.**
5. Construction must commence within 45 days of DDD Commitment and be completed within 120 days after construction start date (subject to weather and other unavoidable events).
 - a) Successful grantee applicants will acquire and install eligible improvements. The contractor(s) used by the grantees must be licensed and insured. The DDD will not be responsible in any manner for the selection of a contractor. The property owner and/or tenant should pursue all activities necessary to determine contractor qualifications, quality of workmanship, and reputation. The property or business owner will be responsible for reviewing the competence and abilities of prospective contractors and secure proof of their licensing and insurance coverage.
 - b) In order to ensure that funds are available, eligible products must be purchased within forty-five (45) days of the effective date of the application. Extensions may be granted by the Executive Director of the DDD given just cause by the applicant (e.g., contractor delays, acts of God, etc.). All grant funds shall be issued to the grantee on a reimbursement basis only. Additionally, the applicant may need to secure permission from the City and HDLC for the installation of eligible products.
6. Once construction has been completed and all necessary final City and HDLC approvals are obtained and documentation (copies of cancelled checks) showing the applicant's share of cost has been provided, the DDD will process a check for payment of the approved grant amount payable to the applicant.

Disbursements

Documentation of total project costs must be provided before payment of the matching grant amount is paid. The matching grant will not be paid until the project is complete and final approval of the project is granted by the Historic Districts Landmarks Commission, if applicable, and any other relevant City permitting agencies.
